Soupault

Manage your static sites your own way

On this disk

- ✓ Soupault 1.10
- ✓ Reference manual
- ✓ Plugin collection
- ✓ Source code

Soupault is a robotic webmaster that understands HTML, the language of the World Wide Web and can see the structure of your pages. It can work even with handwritten websites where every page is unique, or with output of another HTML generator.

Verify digital signatures with public key from the QR code.
